

## **FINAL POSTER PRESENTATION SESSIONS**

### **Poster round 1: Friday 8<sup>th</sup> June 2018, 10:30-11:00h**

<b>P1</b>	5 Acute appendicitis. The relationship between symptoms, preoperative serological determinations and histology. Observational retrospective analysis. A score for predicting complicated appendicitis. <b>C. Garcia-Amador</b>
<b>P2</b>	7 Diabetic foot infection, Microbiological profile and antimicrobial resistance in a tertiary referral center in Lebanon. <b>J. Hoballah</b>
<b>P3</b>	36 Variation in classification and postoperative management of complex appendicitis: an international survey. <b>E. De Wijkerslooth</b>
<b>P4</b>	29 Intraabdominal infections (IAIs) with severe sepsis in a community hospital <b>S. Taximi</b>
<b>P5</b>	45 Do's and Don'ts in wound care with Negative Pressure therapy: learning from our experience. <b>E. Alvarez</b>
<b>P6</b>	31 A Multi-Hospital Collaboration to Promote Quality Improvement: The Cardiac SSI Network <b>C. Morais</b>
<b>P7</b>	15 Imipenem-cilastatin resistant bacteria in gangrenous acute cholecystitis. A 4-year experience. <b>A. Medina V</b>
<b>P8</b>	46 Multidisciplinary approach to treatment of patients with unformed intestinal fistulas. <b>I. Batyrshin</b>

### **Poster Round 2: Friday 8<sup>th</sup> June 2018, 17:00-17:30h**

<b>P9</b>	16 Negative Pressure Therapy in the Surgical Treatment of Diabetic Foot <b>C. Bogdan Mihnea</b>
<b>P10</b>	17 Endoscopic Vacuum Therapy used in treatment of oesophageal fistula at a patient with mediastinitis <b>C. Bogdan Mihnea</b>
<b>P11</b>	55 Surgical Site Infections (SSIs) : Observation Study and Risk Factor Assessment in a Greek Surgical Department <b>I. Koutelidakis</b>
<b>P12</b>	21 Intraoperative samples of bile and peritoneal liquid in gangrenous acute cholecystitis. Does it worth the simultaneous sampling? <b>DA. Diaz Candelas</b>
<b>P13</b>	33 Fournier gangrene due to inguinal hydrosadenitis: case report. <b>DA. Diaz Candelas</b>
<b>P14</b>	50 Hybrid (open/laparoscopic) technique for umbilical hernia repair in an obese and immunosuppressed patient using p4hb biosynthetic, fully absorbable mesh <b>G. Chatzimavroudis</b>

<b>P15</b>	30 Management of perineal, perianal and genital necrotizing fasciitis (Fournier's gangrene): experience with 12 cases <b>C. Chouliaras</b>
<b>P16</b>	28 Lumbar abscess from solitary diverticulum of sigmoid colon <b>E. Pantiora</b>

**Poster Round 3: Saturday 9th June 2018, 11:30-12:00h**

<b>P17</b>	64 Released Mitochondrial DNA Following Intestinal Ischemia Reperfusion Induces the Inflammatory Response and Gut Barrier Dysfunction <b>Q. Hu</b>
<b>P18</b>	27 Invasive Fungal Infection (IFI) as Diffused posttraumatic cutaneous mucormycosis in a multitrauma patient: Case report presentation <b>V. Kaldis</b>
<b>P19</b>	37 Kerion celsi. A very rare fungal infection of the scalp which can imitate wound suppuration <b>A. Rizos</b>
<b>P20</b>	58 ulcer perforation and candida peritonitis. The importance of an early source control and directed therapy <b>B. Peinado</b>
<b>P21</b>	10 Necrotizing fasciitis after inguinal hernia repair. <b>C. Oikonomou</b>
<b>P22</b>	11 Dirofilaria immitis: a rare cause of subcutaneous infection in an adult <b>C. Oikonomou</b>
<b>P23</b>	44 NECROTIZING SOFT TISSUE INFECTIONS: A MINI-SERIES EXPERIENCE <b>C. Avgoustou</b>
<b>P24</b>	53 Microbiology of Necrotizing Soft Tissue Infections – Does it justify the initial empirical treatment? <b>I. Pentara</b>
